Mortise Lock

YDM4115A

YDM4115A has great features, but what really makes it special is the stylish and sleek design. The body is either brown or silver in colour, with perfect finishing touches. The smart lock's technology hides the fingerprint sensor underneath the display screen. It has a hidden mechanical keyhole, which enables access with a spare mechanical key if there is an emergency situation. Virtual password entry can effectively prevent password leakage, and get alerted through instant phone and sound alarms when there have been unauthorised attempts or access. It's all in the details.

Product Key Features

- Yale Home**
- Biometric
- PIN Code
